

1943 INTRODUCTIONS

- GOLDEN SURPRISE** - A bright sulphur yellow pompon shading to golden yellow. Blooms on well formed sprays with rigid pedicils. The variety is of extremely easy culture, and possesses excellent glossy green foliage which is disease resistant. Will give very good production of attractive blooms having good form and substance. Matures November 20th to 25th when yellow pompons are in great demand.
- GOLDEN TOBIN'S** - A golden yellow sport of Tobin's Improved. Matures December 15th and later.
- HONGAL** - A golden bronze incurved commercial. Maturing October 20th.
- NAVAHO** - Designed for a cloth house, medium, decorative, red pompon. It blooms normally November 5th. Color is deep crimson; reddish bronze under early shading. Responds well to shading and fills a great need for a cloth house variety in its color range. Growth is strong and uniform. The 2½ inch flowers are well spaced on fine sprays. Stems are dark and hard, foliage is glossy deep green. Equally valuable on raised benches or ground beds. Plant June 1st to 10th.
- PIXIE** - Pixie is a large, well rounded button pompon, 1½ inches in diameter. The color is deep golden yellow. The normal blooming date is November 10th. Pixie has proven very valuable for early shading. Substance is outstandingly good, making the shipping and keeping qualities excellent. The plant is productive; the flowers are produced on stiff, wiry stems with good spray formations. This variety will respond well under a wide diversity of cultures. Plant June 5th to 10th. Final pinch July 10th to 15th.
- RED VALENCIA** - A sport from Valencia with a very versatile new color. It is a soft, pleasing tint of Brazil red.
- SEAFOAM** - Pure white large pompon having a full centre with well rounded form. The blooms are produced on rigid and well spaced sprays. A free and easy grower with an unusually high production. Responds well to shading and is well suited to cloth house culture. Blooms November 20th to 25th. This variety produces freely high quality white pompons at a period when they are badly needed.
- SPUN GOLD** - This variety has been on trial for several years under extensive plantings. It ranks among the highest producing pompons we know of. Spun Gold is a large, decorative pompon; deep lemon yellow in color. It blooms December 15th and later. Because of good substance it ships and keeps well. The stem is medium and strong. The flowers are well spaced on rigid sprays. Spun Gold has proven equally dependable under raised bench or ground culture. We believe it to be another bread-and-butter variety in the same late group as Snow. Plant June 15th to 20th. Final pinch August 5th to 10th.
- UNEEDA** - A lavender pink intermediate pompon of medium height and excellent growth. Matures November 25th.
- YELLOW HAMMER** - A golden yellow intermediate pompon of medium height and excellent substance. Maturing October 20th.
