

SOIL TESTING EQUIPMENT

We offer the following standard Kits ready for shipment immediately. Special Kits will also be made up to suit abnormal conditions. These Kits have complete instructions and are easy to operate and understand, and require no special training in chemistry. They are made for the grower to get results.

No. 1 Kit - 15.00

Materials and equipment to test Nitrogen, Phosphorus and Potash with complete instructions.

No. 2 Kit - \$25.00

Materials and equipment necessary with full instructions to test for Nitrogen, Phosphorus, Potash and Calcium. Also Acidity P.H. 5.8 to 7.4.

No. 3 Kit - \$50.00

Materials and equipment necessary with full instructions to test for Nitrogen, Phosphorus, Potash, Calcium, Magnesium, Iron, Aluminum, Carbonates, Maganese, Sulphates, Chlorides, Sodium and Acidity test range P.H. 3.8 to 7.4.

No. 4 Kit - \$75.00

This Kit gives the same range of testing as that of No. 3 Kit, but is set up to give six tests simultaneously and save valuable time, where much testing is to be done. Standards are also supplied to give more accurate readings.

We have fortunately secured a large and complete stock of pure chemicals to enable us to supply our customers with uniform reagents for a long period of time. Unless your source of supply of reagents is uniform and reliable much of the value of soil testing is lost. We have kept the price as low as possible, consistent with the higher price of chemicals. We will also be glad to supply any of the equipment that may become broken or useless at any time at reasonable prices.

Reagents Nos. 1, 2, 6, 7, 8, 10, 11, 12, 14, 15,	
16.....	30¢ per oz.
Brom Thymol Blue.....	50¢ per oz.
Reagents Nos. 3, 5, 9, 13, 17, 18.....	50¢ per oz.
Brom Cresol Green.....	50¢ per oz.
Chloro Phenol Red.....	50¢ per oz.
Standards.....	30¢ per oz.
Filter Paper - 100 sheets.....	40¢ per box.
No. 4 Pure Tin.....	25¢.

Bottles will be charged at cost price as follows:

2 oz. metal tops @	10¢
2 oz. bakelite tops @	15¢
2 oz. glass stoppered for No. 2 solution @	60¢
4 oz. glass stoppered for No. 2 solution @	75¢
