

Popular or Scientific Name, with Description.	Hardiness and Duration.	Height	Months or Flowering.	Price
Pansy (Heartsease,) (<i>Violaceæ</i>), this lovely flower, a favorite with every one, is too well known to need any description. Seed sown in August or September, and kept in a cold frame through the winter and planted out in Spring, will blossom abundantly the whole season. The Pansy delights in a loamy soil, enriched with thoroughly decayed cow manure. The seed we offer has been saved from the most celebrated collections in Europe, and will not fail to give satisfaction.				
<i>Choice mixed</i> , English saved seed	h p	½	May, October,	25
